The JURN DISMISSES THE IDEA THAT HESINTENDED

TO KILL EX-JUDGE MORRIS.

The trial of James Dunne, of Brocklyn, for assulting ex-Judge S. D. Morris with intent to kill, was so far concluded yesterday at 1:30 p. m. that the jury retired to deliberate upon a verdict. At 10 a. m., when the trial was resumed, the court-room was densely crowded. The testimony had been concluded on the previous day, and Judge Cullen stated that he would limit the arguments of counsel to one hour each. William A. Beach then moved that the indictment be quashed on the ground that no evidence had been addreed to prove the charge of assault with intent to kill. He argued that the use of a dendit weapon must be shown to sustain such an indictment. Judge Cullen ruled that the case must go to the jury, but if a verdict of simple assault and battery was rendered the Court of Oyer and Terminer could not sentence the accused man for such an offence, that being reserved for the lower courts.

Mr. Beach then summed up for the defendant. In referring to the evidence of ex-Judge Morris, he said that this complaining witness, who had been a member of the Legislature, a County Judge, a District Attorney and a lawyer of prominence, had sworn that he went to the place where he was assaulted in consequence of receiving a decoy letter. It had been shown by two witnesses that this letter had been written to and received by Mr. Morris more than six months before the assault. Then after these two witnesses had shown that Mr. Morris had not testified to the truth, he went upon the stand and attempted to correct his testimony, admixting that Whitmore's testimony was correct in regard to his writing the note in March, but that he (Morris) had no recollection of it.

The argument for the progrettion was made by Chauncey Shaffer, in regard to the alleged decoy letter, he contended that ex-Judge Morris's explanation of it was satisfactory; the letter had lain for weeks on his table and was finally picked up on November 10, when the date on it could be read for th TO KILL EX-JUDGE MORRIS.

while the witnesses on the other side said that he did not say this.

The jury remained in consultation nearly four hours. Soon after 50 clock the jury came into court and announced that an agreement had been reached. The verdict was for simple assault and battery. The sentence was postpoued until 10:30 a.m., to-day. Dunne was admitted to bail in \$1.000, instead of \$10.000, as before. He asked to be sentenced immediately. The penalty for the offence is either imprisonment or a fine, or both.

ENTICING ROBBERS OUT OF A DEN.

The rooms of Kate Busch, a dressmaker, on the second floor of No. 312 East Twelfth-st., were fercibly entered on March 14 by robbers, who carried away property valued at \$300. The robbers were seen leaving the house by a lad named Emil Buckhold. Roundsman Cosgrove and Detective Hickey, of the Central Office, yesterday, learned that one of the robbers was accustomed to visit the grog-shop of James McQuade, in Sixteenth-st., between Ave. A and First-ave. Knowing that the shop was the resort of a gang of young rufflans, and that if they entered their lives would be endaugered, the officers as a "blind" arrested a well-known thief as he was about to enter McQuade's shop. They had walked about a block with him, when the gang learned of the arrest of their comrade, and rushing out of the bar-room endeavored to take the thief from his captors. Detective Hickey, observing among them the man whom he was after, let the man in custody go, and seized the other one. The crowd then became so threatening that the officers were compelled to draw their revolvers in order to disperse the mob. The prisoner, who stutters, gave his name as Thomas O'Brien, age sixteen, of No. 419 East Sixteenth-st. At the Essex Market Police Court, young Buckhold positively identified the prisoner as one of the persons whom he saw leave the house on the day of the robbery. Miss Busch, who now lives at No. 101 Third-ave., preferred a complaint against O'Brien, and he was held to await the action of the Grand Jury in default of \$1,000 hail by Justice Smith. Part of the stolen property was found in a pawnshop in Ave.-A. ENTICING ROBBERS OUT OF A DEN.

NARROW ESCAPE FROM A DISASTER.

NARROW ESCAPE FROM A DISASTER.

An explosion occurred about 9 o'clock yesterday morning in the Newark Silk Mills, in Bank-st.. Newark, which shattered several windows and startled the people living in the neighborhood. About five hundred people are employed in the mills. Immediately after the explosion a large and panic-stricken crowd of people assembled in front of the mills anxious about their friends and relatives, and an alarm was sent to the fire department. It was ascertained that none of the employes had been injured. The officers of the mills declined to give information relating to the accident, but the Chief Engineer of the Fire Department made an examination and found that the head of an 8-foot cylinder had been blown out, striking the north wall and making a deep indentation. The bolts that had fastened the head were blown out by the force of the explosion. The purpose for which the cylinder was used was not explained to the Chief, who will investigate the accident. The chief stated that the building was entirely unprovided with fire escapes. He warned the superintendent of the mills that trap doors must be provided for each floor. About five handred people are employed in the neighborhood.

About five handred people are employed in large and nanic-stricken crowd of people assembled in front of the mills auxious about their friends and relatives, and an alarm was sent to the fire department. It was assertiated that none of the employes had been injured. The officers of the mills declined to give information and found that the head of an 8-foot cylinder had been blown out, striking the north wall and making a deep indentation. The bolts that had fastened the head were blown out by the force of the explosion. The purpose for which the cylinder was used was not explained to the Chief stated that the building was entirely unprovided with fire escapes. TOO FREE WITH HIS BUNG-STARTER. John Lawson, of No. 56 Downing-st., in company with Edward Butler, of No. 143 Sullivan-st., and two other friends, while in a bar-room at Hudson and top sping for some drinks. Finnan, in regarding the street occupied shall be paid to the city. Goddard said that it was the intentioned by the content of the chief Engineer of the Fire Department made an alarm was sent to the fire department made an examination and found that the head of an 8-foot cylinder had been blown out, striking the north wall and making a deep indentation. The bolts that had fastened the head of an 8-foot cylinder had been blown on the purpose of a single passible. It was also proposed to lay on tand equip another district untown as soon the purpose of the fire the exception of Alderman Autenrith referring to payment to the city whenever a permit should be force of the explosion. The purpose of laying the tubes, wires, conditions, that the building was entirely unprovided with increase the exception of the fire of the provided with increase the exception of the city and the company of the explosion of the following officers: Norving Green, president, should be a fine singer and player. Yes evidently be a fi

with Edward Butler, of No. 123 States, and two other friends, while in a bar-room at Hudson and Houston-sts., yesterday afternoon, got into a quarrel with the barkceper, Michael Finman, in regard to paying for some drinks. Finman struck Butler and Lawson upon their heads with a bung-starter, and the men had him arrested. At the Jefferson Market Police Court yesterday a physician's certificate was presented which stated that Lawson was suffering with concussion of the brain, and was confined to his bed. The prisoner was committed to await the result of Lawson's injuries on the latter's affidavit, and was held to answer in default of \$1,000 bail on Butler's affidavit.

THE IRON STEAMBOAT COMPANY.

THE IRON STEAMBOAT COMPANY.

The Iron Steamboat Company made preparations yesterday to begin dredging around the stone pier No. 1. North liver, to a depth of twenty-one feet, and also to build its pavilion and shed. The pier is to be ready for occupation May 1. The new iron steamboat, the Cygnus, which was launched from the ship-building yard of John Roach & Son, Chester, Penn. Tuesday, is 221 feet long on the water line, 322 feet breadth of hull, and 112 feet depth of hold. Another of the new steamboats of this company will be launched from the ship-building yard of Cramp & Sons, Philadelphia, to-morrow. She will be named the Perseus. It has been decided to name the four others, now in course of construction, after constellations.

A NEW FIRE-BOAT.

A NEW FIRE-BOAT.

Plans for a new fire-boat were submitted vester-day to the Fire Commissioners by Charles H. Has-well, the City Surveyor. The new boat will be much superior to the one now in use. It will be 134 feet in length, with a width of beam of twenty-six feet and depth of hold of ten feet. There will be two powerful engines and four horizontal pumps with compound steam cylinders, having a capacity of drawing 9,760 gallons of water from the river per minute. There will be sufficient force to project, from eight attachments, from 6,000 to 9,000 gallons a minute, according to direction and elevation.

OPPOSED TO THE SUGAR EXCHANGE. Nine of the leading sugar refining firms of the city beld a private meeting. Tuesday, at Wall and Front-ste, to combine against the action of the New-York Sugar Exchange, recently incorporated. The follow-ing preamble and resolution were adopted:

Whereas, It is proposed by the New-York Surar Exchange, that on and after April 11 members of that Exchange will sell no sugars except through brokers who are members of the Exchange, therefore, Resolved, That the undersigned refiners declare their unwillinguess to recognize in any form the New-York Surar Exchange, and we will buy no sugars under the relief and regulations imposed by that Exchange.

This was strong by Hawmenes & Edder December 1.

This was signed by Havemeyer & Elder, De Castro & Donner, F. O. Matthiessen & Wiechers. Brooklyn Sugar Refining Company, Dick & Meyer, Havemeyer Sugar Refining Company, Moller & Siercks, Thomas Oxnard and C. W. Durant & Sons.

UNITED STATES INSPECTORS ON TRIAL.

The trial of Austin Jayn and John T. Matthews,
United States Local Inspectors of Steam Vessels,
jointly indicted for manslaughter in connection with
the Seawanhaka disaster. was begun in the United
States Circuit Court yesterday morning, before
Judge Benedict. Assistant District Attorney Fiero
appeared on behalf of the Government, and B. B.
Foster represented the defendants. The day was
consumed in the effort to secure the jury. After
twelve men had been obtained the counsel for the
defence exercised his right of peremptory challenge,
and soon exhausted the panel. The court adjourned
with two jurcay yet to be chosen. UNITED STATES INSPECTORS ON TRIAL.

GENERAL WOODFORD'S DENIAL.

GENERAL WOODFORD'S DENIAL.

The New-York correspondent of The Boston Herald said recently in that paper that when President Hayes sent Elliott F. Shepard's name to the Senate as District-Attorney Woodford's successor, the latter telegraphed this message to the President:

B. B. HAYES, Washington: I am still United States Attorney for this district, and shall continue to be after the 4th of March, and "don't you forzet it."

Stewart L. Woodford vester.

of Lillienthal Brothers, who have branch houses in San Francisco and China, against a firm in this city for fraudulently adulterating ginseng, an aromatic root grown principally in Tennessee, Alabama and Georgia, and exported only to San Francisco and China where it is used as a panacea. It is exported from this country, altogether through firms in this city to the exteut of from 1,000,000 to 1,250,000 pounds a year. Since the investigations began the dealers have the ginseng carefully inspected as soon as it is received, and consequently the fraudulent adulteration has stopped.

REBUILDING A DEATH TRAP. THE BURNED TENEMENT-HOUSE IN MADISON-ST. REPAIRED WITH NO MATERIAL CHANGES.

THE BURNED TENEMENT-HOUSE IN MADISON-ST.
REPAIRED WITH NO MATERIAL CHANGES.

The tenement-house in the rear of No. 35 Madisonst., which was the scene of last winter's horror, has been rebuilt. At the entrance to the narrow alley, hardly three feet wide, which leads back to this house, appears this notice: "Room and two bedrooms to let in rear tenement. Apply to Alexander Patten, No. 218 Canal-st." Entering through the alley into the little court before this rear house, it is found that the only apparent change is the removal of the fonce between this court and the next vard. The shed next to the fence, on the roof of which children were thrown from the burning house, is also gone. The shattered, smoky panes of glass and scorched shutters have been replaced, and the fresh paint gives the outside of the house a new and unwontedly cleanly aspect.

Inside a similar renovation as to the appearance of the building has been effected. The blackened rafters, charred and crumbling stairs and burned woodwork have disappeared. On the upper floor the freshly plastered walls and new woodwork tell no story of the disfigured bodies that were found lying dead upon the floor. A closer examination, however, shows that the lesson of the fire has been forgotten, and that in this house, as rebuilt, a like tragedy might readily occur again. In last winter's fire, the half running up through the middle of the house, with its narrow, winding stairs, acted as a flace, affording a draft for the flames, which rushed upward with such rapidity as to cut off escape. The construction of this half remains exactly the same. The stairs and floor are of pine. From the upper floor is a stairway leading to a door which opens upon the roof. This was quickly proved valueless as a means of escape at the fire, for the flames darted up the half and stairs and shot through this opening.

The re-escape is in the front of the building. There are baleonies with iron frame and wooden.

PLANS OF THE EDISON COMPANY.

Major S. B. Eaton, vice-president of the Edison Electric Light Company, said to a Tribune reporter yesterday in regard to the resolution passed by the Aldermen giving the company permission to lay wires through the city: "If the resolution becomes a law, the company proposes to go to work at once and hight the district bounded by Wall, Spruce and Nassausis, and the East River. The light may be seen at No. 65 Fifth-ave, in a few days, and the Etna fron Works Building, in Goerck-st., will be lighted in two or three weeks by several hundred electric lights. The system is now absolutely complete. There are eight miles of mains in Menlo Park. We have obtained the right of way in Detroit and Toledo, and arrangements are making for obtaining that privilege in Chicago, Cleveland, Cincinnati, Baltimore and Boston." Mr. Eaton also said that the company would confine itself for the present to lighting buildings, and that no application had been made by it for the privilege of lighting the streets. In the district mentioned the company would receive a larger revenue from power than light—that is, by the turning of the electricity which came over the wire into power by means of motors.

Secretary Goddard said that it was the intention PLANS OF THE EDISON COMPANY.

THE CITY'S WATER FRONT.

THE CITY'S WATER FRONT.

At a meeting of the Dock Commissioners yester-terday Charles E. Loew and Mr. Whitney, representatives of the Iron Steamboat Company, which has purchased the lease of stone Pier No. 1, North River, for ten years from May I, at \$30,100 a year, made a statement that the property was not in the condition as represented by the Commissioners before the sale. The company understood that there was a depth of twenty-one feet of water at low tide, but the depth was found to be only seventeen feet. The Commissioners proposed to give the company free use of the pier until May I, provided it would do the necessary dredging. The proposition was accepted, and no vessels will be permitted to load or unload there hereafter, as the company will begin the building of structures and other improvements at once. The plans provide for a two-story iron shed 520 feet long and 75 feet wide, extending to within fifteen feet of the end of the pier. On the ground floor will be the waiting and store-rooms, with a driveway for vehicles and plank walks on either side for foot passengers. On the upper floor will be a restaurant, telegraph, telephone and superintendent's offices, a dormitory for servants, store-room, refrigerator-room and an open paython.

J. L. Riker, John D. Wing and J. Monroe Taylor appeared in behalf of fifty-live importers of chemicals and other raw materials, with a petition that the order requiring all goods to be removed from the newly made ground along the water front be modified so as not to go into effect Friday. Mr. Riker surgested that the order be modified so as to give merchants two weeks' time to remove all goods received by steamship, Another hearing will be given to-morrow.

EMPLOYERS AND THEIR WORKMEN.

At a meeting of the executive committee of the newly-formed union of brewery employes on Tuesday, a communication, signed by F. & M. Schaefer, George Ringler and Jacob Ruppert, was received, declaring that they will recomming members of it; also, that they will compensate their employes for the loss of their wages during the suspension of their work. The striking brewers yesterday resumed their work, and a communication was addressed by the committee to the different trade organizations announcing the end of the trouble.

The sik-weavers employed by J. Silberman, in Tenth-ave, have demanded an increase of wages, and the abolition of overwork and Sunday work. They expect a favorable answer in a day or two, otherwise they will strike. The silk-weavers in the employ of Jacob New, in West Pifty-fifth-st., have made a demand for an advance of wages. They also expect a favorable answer. The silk-weavers employed at a factory in West Forty-fifth-st., who were on strike to resist a reduction of 5 per cent, have been successful. Yesterday they resumed work.

The movement for an advance in wages started by EMPLOYERS AND THEIR WORKMEN.

have been successful. Yesterday they resumed work.

The movement for an advance in wages started by the masons and carpenters at Newark, N. J., has caused the painters to decide to ask an advance of 50 cents per day. A meeting of cabinetmakers, door and stair fixture makers, varnishers, turners and workmen in other trades is called for this evening "to consider the state of the trade."

The Bricklayers' Protective Union held a regular weekly meeting last evening at Twenty-sixth-st. and Seventh-ave., this city. Measures were taken to have the union represented at the meeting at Academy Hall to-night, when delegates from the associatious of Brooklyn, Jersey City, Newark and this city will be present.

WHAT DR. GUNN SAYS ABOUT A BALTIMORE "RESURRECTIONIST."

WHAT DR. GUNN SAYS ABOUT A BALTIMORE

"RESURRECTIONIST."

A telegram was published in this city yesterday, stating that considerable excitement had been caused at Baltimore by the discovery of a systematic and widespread plundering of cemeteries there, for the purpose of supplying medical colleges all over the country with bodies for the purposes of dissection. A person was arrested as a "resurrectionist," and a local puper published a large number of letters which had been sent to him, mostly by doctors, relating to his ghastly trade. Dr. Robert A. Gunn, a professor in the United States Eelectic Medical College in this city, who was prominently connected with the Tanner fast, was the only person mentioned in the dispatch.

To a Thibune reporter yesterday Dr. Gunn said:
"Yes, I have seen the article. I don't know why my name was singled out, as it is stated that the West was the principal market; but it is nothing that I am ashawed of, and I have nothing to conceal. The man wrote to me saying that he was connected with some college at Baltimore, and as the physicians often had a surplus of material he was in a position sometimes to supply other institutions. At first I paid no attention to his letter, but as we had had trouble about getting material before, and as I meant to have more than one string to my bow, I finally asked for his prices for material. I believe I used that term, and signed my own name. He wrote again about Sentember saying that he could not supply me until December or January as he had so many orders ahead. I did not write again as there was no need of it, for we had all the material we wanted right here."

"The feeling among medical men is, that they must have bodies for dissection, and that they are sing to have them. When States or officials interpose obstacles, they are really most responsible to the 'resurrection' business. The State makes laws compelling a surgeon to know all about the human organism, and punishes him for malpractice if he does not know all this, but nevertheless inte

was defined and the root. This was quickly proved falmes a means of escape at the fire for the falmes darted up the hall and stairs and shot through this opening.

The fire-escape is in the front of the building. There are balconies with iron frame and wooden from along each story, through each of which runs one small iron ladder. At the fire this was found useless, for it ran down directly before the hall windows, from which the flames protruded. Now the ladder is placed less than a foot from the hall windows, and near the first window of the rooms to the right would be forced to descend the ladder within a foot of the flames bursting from the hall window, and the inmates of the rooms to the left would be utterly mable to reach the ladder, as between it and themselves would be a wall of fire issuing from the hall window and across the balcony along which they must pass. The fact that these balconies are usually filled with boxes and barrels which often rest on the trap door intended to afford access to the ladder is, of course, entirely the fault of the immates.

As the only means of reaching this tenementhouse is by a three-feet-wire alley, which opens into a small court, the same difficulties exist for the Fire Department which were encounceed last winter. Nevertheless, the building is ready for occupancy.

A bousekeeper is in possession, and those who are attracted by the price of \$8 a month for a "room and two bedrooms" will be compelled to take the chances of death by fire or suffication.

PLANS OF THE EDISON COMPANY MR. GAYLER'S EXPERT TESTIMONY.

"I cannot give an opinion on such a oriet inspection."

The letter was placed in his hands for subsequent
scratiny. The direct examination of the winess
being conclined, Mr. Chanberlain's request for a
postponement of the cross-examination was granted
by the Court. Captain Seas then finished the
reading of his record, after which the Court adjourned.

Mr. Southworth and Mr. Ames will probably be
further cross-examined to-day, and Mr. Hagan tomorrow. The cross-examination of Mr. Gayler will
then complete the testimony for the prosecution.

A BOSTON GIRL'S AMBITION.

A BOSTON GIRL'S AMBITION.

A young Boston belle, who a week ago left her home against the wishes of her parents and without their knowledge, to become a great actress in this city, was yesterday secovered by her father at Police Headquariers, where she had been an involuntary boarder since Monday night. Her parents, upen discovering her flight, telegraphed to Superntendent Walling, and on Monday night Detective Dolan found the girl in the Continental Hotel. She had endeavored unsuccessfully to obtain an engagement at several theatres. At Police Headquarters she shared the room occupied by Mrs. Betgman, the Paladelphia runaway, and the two became fast friends. Great efforts were made to suppress the name of the young woman, but it was learned yesterday that her name was Cora Williams. Her father is said to be a wealthy hardware merchant living in the South End of Hoston, near the St. James Hotel. He opposed, with the girl's stophnother, his daughter's inclination for the stage strongly, but unsuccessfully. Miss Williams is nineteen years old, handsome and graceful. She is said to be a fine singer and player.

Yesterday her father and several other relatives arrived in this city, and went to Police Headquarters. Miss Williams persisted in her determination to go upon the stage, but upon receiving the promise that she might do as she pleased if she would stay in Boston, she consented to return. In the afternoon the family left the city.

Legislature against the passage of a bill which has been introduced giving the authorities of Patham County greater power over the water supply drawn from that county for the use of this city. The objections of the bill are that it will add from \$14,000 to \$19,000 to the annual salary account of the city. It will limit and practically destroy rights which the city has just acquired at a cost of \$250,000. It will subject the entire new system of the city watersmoply to the supervision and control of agents to be paid by the city, but to be appointed, governed and removed by the authorities of Putnam County. The protestants say that in spite of the utmost efforts of the Department of Public Works the city was on the verge of a water famine last winter. The necessary result of the bull will be seriously to impair and impede the supply of water for the city.

INJURED BY A FALLING BUILDING.

INJURED BY A FALLING BUILDING.

An old frame building, No. 50 and 52 Railroadave, Jersey City, fell in with a loud crash vesterday morning. Three men—George Hummel, Conrad-Henkie and Richard Conrad—were buried in the runs. Hummel had one of his legs broken above the knee, and was taken to the Charity Hospital for treatment. Henkle and Canrad were only slightly injured and were able to walk home. The building was owned by Jasper Cadmus, of Bayonne City, N. J., and was valued at less than \$500. It was formerly used as a foundry. The owner recently leased at to Thomas Whelan, a painter doing business in Grove-st., and it was being fitted up as a storecom, it was too low, and a builder named Evesson was employed to thise it. Workmen had raised the building several feet by means of jackscrews when it suddenly gave a furch to one side and fell in a heap with a crash. The statement that the three men were fatally injured is false.

THE BROOKLYN MATERNITY.

THE BROOKLYN MATERNITY.

The annual report of the Brooklyn Homeopathic Maternity and New York State School for Training Norses shows that 194 women and children were sheltered in the last year, and in the Nursery and Child's Hospital ninety were cared for. The treasurer's report shows that the receipts for the year were \$8,182 09 and the expenditures, including \$1.000 paid on the principal of the mortgages and \$1.359 82 for interest on mortgages, were \$8,108 35. The number of students graduated from the Training School since its establishment is forty-seven.

THE STRIKES AT FALL RIVER.

FALL RIVER, Mass., March 23 .- The strike at the American Print Works is virtually ended. Eight machines are running to-day, and all of the old hands, with few exceptions, have returned to work at the old price. There are no new developments in the Chace

mill strike.

The Executive Committee of the Spinners' Association has voted to pay the soinners now on strike at the Chace Mill \$6 a week and the back boys and doffers in proportion. It was decided that in case of a shut-down of all the mills an appeal will be made to the city for sid, and that the pay of the strikers will still go on. The officials of the Chace Mill are making efforts to secure spinners from Suncook, N. H., and other piaces, but notices have been sent to every city where print cloths are manufactured by the officers of the Trades Council warning the operatives to keep away from the city. The operatives, however, feel able to prevent the employment of knobsticks, and sentinels are kept around the mill to warn workers away. Two important meetings of spinners and weavers are called for to-morrow.

MR. SCHURZ ON CIVIL SERVICE REFORM.

Boston, March 23 .- Ex-Secretary Schurz was visited by members of the Civil Service Reform Association of this city to-day, and, in conversation, he laid down as a principle on which appointments to office should be made that the applicant ought to be omee should be made that the applicant ought to be fully qualified by character and ability for the position he is to fill, and that no favoritism, personal or political, should be allowed to have any influence in the selection of an appendice. Speaking from his own experience, he considered the competitive system to be of immense value. He thought President Garfield would be glad to see a reform brought about. Much can be done and must be done by the creation of public sentiment. It would be wise to organize a civil service reform association in every Congressional District.

ANOTHER WIFE-BEATER SENT TO JAIL.

Martin Foley, age thirty-two, of No. 9 Munros-st., at the Essex Market Police Court yesterday morning, was accused of an upprovoked assault upon his wife, Mary. He was sent to the Island for three months. The prisoner was recently released from the workhouse, where he served a term of six months for brutally beating his daughter.

for brutally beating his daughter.

A light fine for the offence.

Henry Dolphin, of No. 302 West fwenty-ninth-st., and Francis Goldihwait, of No. 30 West fwenty-fifth-st., were fined Sid cach at the Tombs Police Court yesterday for using indecent language on a down-town Iniri-ave, elevated train Tuesday evening. Inspector Murray, who was on the train, arrested the men after they were ejected at the Four teembest, station. teenth-st. station.

teenth-st. station.

UNABLE TO MANAGE HER HORSE.

Miss Authony, a pupil at the Fifth Avenue Riding Acade my, rode in Seventh-ave, on a spirited horse I uesday afternoon. At One-hundred-and-twenty fourth-st, the animal ran away; Roundsman Gannon, of the Mounted Squad, overtook and stopped the horse at One-hundred-and-eleventh-st. Miss Authony, though much frightened, had kept her seat, and safely passed through the danger.

EXONFEATED BY A COFONER'S JULY.

Dennis Madden, a laborer living in Elizabeth-st., died in the Chambers Street Hospital on March 5. An autopsy showed an injury to the brain that was the result of violence. Christian Fisher, of No. 17 Rivington-st, was arrested on the charge that he had pushed Madden from the shoop. Yesterday Fisher was exponerated, and the jury decided that the dead man had received his injuries in some unknown mauner.

were rescued.

Uprown Landlords and Tenants,
Some of the uptown landlords are waxing wrathful because fenants decline to renew their leases at
the present advanced rates. Some tenants, who for
years have paid their rents in the end of the month,
have been served with warrants of dispossessal on
the ground that the rent for the present month has
not yet been paid. Judgment granted in one case
for the tenant has caused him to remove the bill
from the house and to close it against landlord and
applicant until May 1.

SELTLING A QUESTION OF MARGINS.

from the house and to close it against landlord and applicant until May 1.

SETTLING A QUESTION OF MARGINS.

There was referred vesterday to the Beard of Managers of the Produce Exchange a matter relating to margins. The rules provide that "on all sales or purchases of grain to arrive, or for future delivery, either party to the contract shall have the right to call an original margin," etc. The question submitted was whether or not A. was obliged to put up a margin at the same time that a margin from B. was called. The Board decided that the margins put up by both parties must be equal.

COMMISSIONER FRENCH DISLIKES A SCENE, Before Folice Commissioner French yesterday Richard Hastonics, a Custom House officer, accused Policeman Michael W. Wiley of abusing and threatening him on the night of March 7, as the complainant was going into his house, No. 675 Green wiches, Officer Wiley's wife and sister said that Hastings in passing stared at them in an insulting manner, and that they complained to Wiley, who spoke harshly to him. At the suggestion of Mr. Hastings that the women had been carrying on an improper conversation, Mrs. Wiley grew very indignant and threatened to become hysterical. Commissioner French hastily closed the case, and reserved his decision.

BROOKLYN. BROOKLYN.

The dead body of a female infant was found by some boys in a vacant lot at Ryerson-st, and Flushing-ave., yesterday afternoon.

An Anti-Monopoly League has been formed in An Anti-Monopoly League has been formed in Brooklyn. Among the numbers are D. R. James, John F. Henry, Bernard Peters and G. H. Fisher.

"Frank" McGuire, who is under arrest for complicity in the robbery of bonds and jewels worth \$3,600 from the house of Miss Elizabeth Roberts, No. 100 Second-place, March 12, was examined before Justice Ferry yesterday and held to await the action of the Grand Jary.

An organization is to be formed among the Social-ists of Brooklyn to resist advance of rents on the part of landlords. A call has been issued for a public meeting in Greenpoint to consider the subject. It is proposed to "Boycott" all landlords who refuse to accede to the demands of the association.

NEWARK.

The new Women's Hospital connected with St. Michael's Hospital, will be opened for the reception of patients to-day. The institution is modelled on the plan of the New-York Women's Hospital. The Central Railroad Company has nearly com-pleted a series of extensive improvements at the Broad at, terminus of the Newark and New-York Railroad. A new freight house, 300 feet long and fifty feet wide, has been creeted with an entrance in Fair-st. An additional passenger track will be laid in the main building.

A young man named Zellar, who was recently a strant at St. Benedict's College, Westmoreland, Penta, and who has lately boarded with a Mrs. Gahm, at William and Shipman-sts., has disappeared, and is reported to have taken \$150 in money and two watches belonging to his landiady. In his room were found several articles which had been stolen from the college.

Mrs. Bridget O'Brien, of No. 35 Wickliffe-st., while walking with her daughter near her home, was approached by a rough-looking man, who struck her twice in the face with a mason's trowel, cutting her nose open its entire length, knocking out two teeth, and cutting through her lip. The cries of the two women attracted the attention of passers-by, and the ruffian fied. The man was unknown to the women, and his motivo remains a mystery.

NEW_LEPSEY

NEW-JERSEY. ORANGE.—The new Common Council, which has a Republican majority for the first time in a number of years, was organized Tuesday night. The Mayor made a statement of the financial condition of the city, showing the liabilities to be \$336,816.08; cash assets, \$124,441.15; debit balance, \$212,374.93, fully represented by real estate owned by the city.

The Mayor recommended the temporary borrowing of money to pay the county taxes promptly, the rigid enforcement of the Liquor law, the thorough reorganization of the fire department, and a policy deprecating any addition to the permanent debt. Several Democratic city officials were displaced in favor of Republicans.

STATEN ISLAND. CLIFTON.—John Loomis, of New York, was seriously injured yesterday by being thrown from his wagon, while driving along Vanderbilt-ave., Clif-

SOUTH BEACH.—Work has been begin at South Beach on the new Sanitarium building for St. John's Guild. It is to be a frame structure, two stories high, 137 feet long, and 80 feet deep. The contract has also been awarded for the erection of a pier 900 feet long, at which the boats of the Guild are to land.

HUDSON RIVER TOWNS. WHITE PLAINS.—The will of William H. Florence, hotel proprietor, who recently died, was admitted to probate by Surrogate Coffin, of Westchester County, at White Plains, yesterday.

THE LIGHT IS BROKEN IN UPON THE WORLD,

AND WITH JOY IS IT HAILED INDEED.

HOW MANY SAD EYES WILL FALL UPON THESE LINES,

WHICH MAY YET BRING JOY TO THEIR HEARTS AND HEALTH TO THEIR FRIENDS.

It is HALE'S HONEY OF HOREHOUND AND TAR.
This is not a new thing, taking it separately, but as a combination of those grand old remedics, it is new, and was never bination of those grand old remedies, it is new, and was never before combined by anybody. Horehound has been known from time immemorial as the best remedy for Sore and Diseased Lungs and Coughs, Colds and Sore Throats. But Tar has sained a reputation unequaled by anything class in cases of Consumption and those deep-seated Colds, and those two, combined with the soothing and pleasant effects of honey, have formed a combination that is superior to any other one remedy in the whole world for the cure of Consumption, Bronchitis, Coughs, Sore Throats and Weak Breasts. The great number of cures that it has effected, even in cases that have been given up by their doctors and their triends; were only writing the slow monster's own time. All hope gone, all efforts waiting the slow monstar's own time. All hope gone, all efforts to cure ceased, when some one that had been saved from a like fate comes in or hears of their case, and says: "You are no fate comes in or hears of their case, and says: "You are no worse than I was. But look at me now. HALE'S HONEY OF HOREHOUND did it, and it will cure you too." Priends, never give up until you have fully tried HALE'S HONEY OF HOREHOUND AND TAR. It is sold in bottles at 50 cents and \$1, the contents of the latter being nearly triple that of the 50-cent bottles. The policy of buying the latter, in an economical point of view, as well as to provide against possible emergencies, is therefore obvious. It is still more economical to purchase the \$5 packages of this standard medicine, containing six bottles. These packages are sent to meditine, containing six bottles. These packages are sent to any city address upon receipt of the price, without charge for

HALE'S HONEY OF HOREHOUND AND TAR has up in it the name of the proprietor, C. N. CRITTENTON, No. 115 Fulton st., New-York. Sold by druggists and medicine
